THE 27TH DECEMBER, 1841.

The following Draft of a proposed Act was read in Council for the first time on the 27th of December 1841.

ACT No. —— OF 1841.

An Act for amending the Law concerning the jurisdiction and procedure of the Courts of Ameens and Moonsiffs.

I.—In modification of Clause 4, Section 18, Regulation V, of 1831, Bengal Code, it is hereby enacted, that in the trial and decision of all original Suits referred to them by the Judge, the Principal Sudder Ameens shall be guided by the rules established for the conduct of business in the Courts of the Zillah and City Judges.

II.—And it is hereby enacted, that the provisions of Section 4, Act No. XXV. of 1837, in respect to appeals from decisions passed by Principal Sudder Ameens, in Suits of the nature specified therein, be extended to all interlocutory orders passed by those Officers in such Suits.

III.—And it is hereby enacted, that such parts of Regulation XXII. 1814, as prohibit the Sudder Ameens and Moonsiffs from requiring security from defendants; or from attaching their property in cases pending before them; or from realizing fines imposed by them without first obtaining the sanction of the Zillah Judge, be repealed.

IV.—And it is hereby enacted, that it shall be competent to the Sudder Ameens and Moonsiffs to demand security from the defendant, under the provisions of Sections 4 and 5, Regulation II. 1806, in cases pending fore them; and also to proceed, without reference to the Zillah Judge, to the realization of fines imposed by them, provided that all orders passed by the Sudder Ameens and Moonsiffs under this Section, be subject to an appeal to the Zillah Judge.

V.—And it is hereby enacted, in modification of Section 22, Regulation V. of 1831, that decrees passed in the Courts of the Judges or Principal Sudder Ameens, in cases of appeal from the decisions of the Sudder Ameens and Moonsiffs, shall be executed by the Courts in which the original decisions were passed, under the general rules prescribed for the execution of decrees passed by those Courts—applications for the execution of such decrees shall be presented, together with a certified copy of the decree of the Judge or Principal Sudder Ameen to the Court of original jurisdiction. In appeals from the orders of the Moonsiff or Sudder Ameen in such cases, the decision of the Zillah or City Judge shall be final.

VI.—And it is hereby enacted, that Clause 2, Section 13, Regulation XXIII. 1814, and Clause 4, Section 5, Regulation V. 1831, be repealed.

VII.—And it is hereby enacted, that no person whatever shall, by reason of place of birth, or by reason of descent, be in any Civil proceeding whatever, exempted from the jurisdiction of the Courts of the Moonsiffs, in the Territories subject to the Presidency of Fort William in Bengal.

VIII.—And it is hereby enacted, that persons invested with the powers of Moonsiffs shall be competent to receive, try, and determine suits of every description under the restrictions as to local jurisdiction and value of property mentioned in Clauses 1, 2 and 3, Section 5, Regulation V. 1831. Provided, however, that no Moonsiff shall try any suit, in which he himself, or his relatives, or dependants, or the Vakeels or Officers of his Court shall be a party.

IX.—And it is hereby enacted, that in cases, where by reason of the above Section, a Moonsiff cannot try a suit because he himself, or his relatives, or dependants, or the Vakeels or Officers of his Court are a party to the suit, it shall nevertheless be competent to the Moonsiff to receive the suit, and forward it to the Judge of the Zillah to which he is subordinate, who may thereupon refer the same for trial and decision to any other Moonsiff of the District.

IT is hereby notified for general information—

First.—That all Letters and Newspapers, except Soldiers' and Sailors' Letters, intended for transmission by the Overland Mails, and except those specially marked "via Falmouth," will be sent through France, and thus be subject to the heavier rate of postage.

Second.—Letters and Newspapers addressed to France as well as those to other foreign countries, with which France is the channel of communication (if the latter are expressly directed to be so sent) will be made up in Packets and sent to the French Post Master at Marseilles; but Letters for Foreign Countries, other than France, if not specially directed to France, will be included in the Packets for England. Letters, &c., for places lying between Bombay and Marseilles, will be despatched in separate Packets.

Third.—Letters for the United Kingdom of Great Britain, weighing less than a quarter of an ounce, and passing through France, are charged single postage, which by that route amounts to 2s. 8d. By the Falmouth route, Letters of half an ounce in weight, are subject to single postage only, which by that route, has now been reduced to 1s.

Newspapers, if sent via Falmouth, are free of postage; but if transmitted by the way of Marseilles, they are charged 2d. each.

NOTICE.

HANGE OF PILOT STATION FOR THE RIVER HOOGHLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the encreasing resort of Shipping to e Port of Calcutta, to supply Pilots at the distant tation off Point Palmyras, the arrangements as noted the following Memorandum from the Master Atndant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False oint during the next South West Monsoon, say from e 15th of March to the 15th of September 1842, earing, according to circumstances, E. by N. a S. E. y S. from the Light House, and in from 10 to 15 thoms depth of water.

2d.—This Vessel will exhibit by day when any thers are in sight, besides the usual Company's nsign at her Peak, a *large Danish Jack* (red with hite cross) at her Main Top Gallant Mast Head, and t night a GOOD Light in the same situation, besides urning a Blue Light every hour, and beating a Gong equently in calm thick weather, to warn Vessels ming from the Southward of her near neighbourood. She will *not* however have any Pilots on oard, the main object of her intended Station off alse Point being to guard all inward bound Vessels om proceeding to the old Station off Point Palmyras uring next season, and directing them to a new one n the South Channel between the Tails of the astern and Western Reefs, where Pilot Vessels will hen be found in from 16 to 20 fathoms water, and om 6 to 8 Miles South West of the present South hannel Buoy, that Buoy laying in Lat. 20° 58′ 30″ N. Long. 88° 4′ East of Greenwich, and in 12 fathoms ater.

3d.—For the purpose of more distinctly marking the w Station, the Commanding Officer's Vessel there ll always wear by day, when other Vessels are in ht, a large *St. George's Jack* (white with red cross) t her Main Top Gallant Mast Head, besides the ual Company's Colours at her Peak, and at night distinguished by a constant *good* Mast Head Light, y Blue Lights and Maroons used alternately every lf hour and also by Guns fired every four hours, y at 8 P. M., Midnight, and 4 A. M. with good ockets discharged at the same time.

4th.—All Vessels are recommended to be most careful in coming over from False Point to the New Staon by constant attention to that safe old Guide the ead, and thereby correcting their Steerage as Tides r Currents may or may not set them out of their oper course, and they are also advised not to come der 16 fathoms, at night especially, till they reach e Pilot's Station and get their proper Pilots on ard.

5th.—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due rning, and not only by the exhibition of Lights, say *Vertical* where best seen, but also by the discharge a Gun, if they have any on board, as soon as they cry the first Pilot Vessel near them. They are furr recommended to be most careful not to come into lision with any of the Pilot Vessels at the Station their own accounts no less than that of the Public they will be held responsible for all Damages, and lled upon afterwards to pay for all that may have sen from bad Look-out, Inattention to Duty, or relessness of any kind whatever.

Master Attendant.

By order of the Marine Board,

C. B. GREENLAW, *Secretary.*

t William, the 18th October, 1841.

No. 1745.

NOTICE.

REFERRING to the Notification indicating the proposed change of the Pilot Station during the approaching S. W. Monsoon, the Marine Board hereby give Notice, that with the sanction of Government, a Chart of Captain Lloyd's late Survey of the Ground between Lacam's Channel and False Point is being lithographed for public Sale, and the following is copy of Instructions proposed by Captain Lloyd with a view to the more ready Guide of Vessels from False Point to the New Station.

"It has been proposed by the Master Attendant, "and approved of by the Marine Board, to change "the Cruizing Ground of the Pilot Vessels during "the S. W. Monsoon, or between the 15th of March "and 15th of September from their present Station "of Point Palmyras, to a position 6 or 8 miles S. W. "from the South Channel Buoy in from 16 to 20 "fathoms, and the following directions are offered as a "guide to direct Vessels from False Point Light House "to the New Cruizing Station."

"False Point Light House is in Latitude 20° "19½′ N. and Longitude 86° 47′ E., and that of the "South Channel Buoy in Latitude 20° 59′ N. and "Longitude 88° 4′ E., and bears from the former "N. 61 E. true or N. E. by E. ¼ E. by Compass, "distant 83 miles, and is laid in 12 fathoms."

"By an inspection of the Chart it will be seen that "the Bank of Soundings off Point Palmyras extend in "a direction towards the tail of the Western Sea Reef, "and the nature of the bottom (as distinguished from "that of the Hoogley deposit which is Sand and Mud "with shining specks) is a gravelly substance com- "posed of Sand Shells and small Pebbles discharged "from the "Kunka" and other Rivers near Point "Palmyras, the lighter materials of which being "carried further out, is deposited and forms what is "called the Pilot's Ridge, which in crossing to the "N. W. shews a little less water than on either side, "and in coming from Seaward you Shoal rather "suddenly from 28 to 23 fathoms upon its Eastern "edge. It is composed of a shelly Sand or Minute "Gravel, of a reddish or rusty brown colour."

"The best Guide therefore to enable a Vessel to "direct her course from False Point to the Vessels at "the New Station will be to run down the edge of "the Pilot's Ridge, and having made the Light House "and brought it to bear about W. S. W, or S. W. by W. "and distant by computation from 10 to 15 miles, should "steer to the E. N. E., and having gradually encreased "her depth of water to 23 fathoms upon the Eastern "edge of the Ridge, she should regulate her course to "keep between it and 27 fathoms, when, by attention to "the lead and nature of the Soundings, course and "distance run from the Light House, it is almost "impossible to miss the Pilot Vessels (if the above "limits are kept within) either by getting too far to "Windward or falling to Leeward, for the Soundings "encrease so rapidly to Seaward from the proposed "New Station, that 28 fathoms will not be more "than 3 or 4 miles to the Southward of it, and 23 "fathoms the same distance to the Westward of it."

"The Soundings to Seaward of the Ridge are in "general a greenish or olive coloured mud, with "occasionally a few bits of broken Shells mixed "with it."

(Sd.) RD. LLOYD, *Capt. I. N.,*
Offg. M. S. Genl.

The price of the Chart will be Rupees 2 each, and parties desirous of being supplied are requested to send their names for registry at this Office.

ACT No. —— OF 1841.

An Act for amending the Law concerning the jurisdiction and procedure of the Courts of Ameens and Moonsiffs.

I.—In modification of Clause 4, Section 18, Regulation V. of 1831, Bengal Code, it is hereby enacted, that in the trial and decision of all original Suits referred to them by the Judge, the Principal Sudder Ameens shall be guided by the rules established for the conduct of business in the Courts of the Zillah and City Judges.

II.—And it is hereby enacted, that the provisions of Section 4, Act No. XXV. of 1837, in respect to appeals from decisions passed by Principal Sudder Ameens, in Suits of the nature specified therein, be extended to all interlocutory orders passed by those Officers in such Suits.

III.—And it is hereby enacted, that such parts of Regulation XXII. 1814, as prohibit the Sudder Ameens and Moonsiffs from requiring security from defendants; or from attaching their property in cases pending before them; or from realizing fines imposed by them without first obtaining the sanction of the Zillah Judge, be repealed.

IV.—And it is hereby enacted, that it shall be competent to the Sudder Ameens and Moonsiffs to demand security from the defendant, under the provisions of Sections 4 and 5, Regulation II. 1806, in cases pending fore them; and also to proceed, without reference to the Zillah Judge, to the realization of fines imposed by them, provided that all orders passed by the Sudder Ameens and Moonsiffs under this Section, be subject to an appeal to the Zillah Judge.

V.—And it is hereby enacted, in modification of Section 22, Regulation V. of 1831, that decrees passed in the Courts of the Judges or Principal Sudder Ameens, in cases of appeal from the decisions of the Sudder Ameens and Moonsiffs, shall be executed by the Courts in which the original decisions were passed, under the general rules prescribed for the execution of decrees passed by those Courts—applications for the execution of such decrees shall be presented, together with a certified copy of the decree of the Judge or Principal Sudder Ameen to the Court of original jurisdiction. In appeals from the orders of the Moonsiff or Sudder Ameen in such cases, the decision of the Zillah or City Judge shall be final.

VI.—And it is hereby enacted, that Clause 2, Section 13, Regulation XXIII. 1814, and Clause 4, Section 5, Regulation V. 1831, be repealed.

VII.—And it is hereby enacted, that no person whatever shall, by reason of place of birth, or by reason of descent, be in any Civil proceeding whatever, exempted from the jurisdiction of the Courts of the Moonsiffs, in the Territories subject to the Presidency of Fort William in Bengal.

VIII.—And it is hereby enacted, that persons invested with the powers of Moonsiffs shall be competent to receive, try, and determine suits of every description under the restrictions as to local jurisdiction and value of property mentioned in Clauses 1, 2 and 3, Section 5, Regulation V. 1831. Provided, however, that no Moonsiff shall try any suit, in which he himself, or his relatives, or dependants, or the Vakeels or Officers of his Court shall be a party.

IX.—And it is hereby enacted, that in cases, where by reason of the above Section, a Moonsiff cannot try a suit because he himself, or his relatives, or dependants, or the Vakeels or Officers of his Court are a party to the suit, it shall nevertheless be competent to the Moonsiff to receive the suit, and forward it to the Judge of the Zillah to which he is subordinate, who may thereupon refer the same for trial and decision to any other Moonsiff of the District.

CHANGE OF PILOT STATION FOR THE RIVER HOOGHLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the encreasing resort of Shipping to the Port of Calcutta, to supply Pilots at the distant Station off Point Palmyras, the arrangements as noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, bearing, according to circumstances, E. by N. a S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of water.

2d.—This Vessel will exhibit by day when any others are in sight, besides the usual Company's Ensign at her Peak, a *large Danish Jack* (red with white cross) at her Main Top Gallant Mast Head, and at night a GOOD Light in the same situation, besides burning a Blue Light every hour, and beating a Gong frequently in calm thick weather, to warn Vessels coming from the Southward of her near neighbourhood. She will *not* however have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Palmyras during next season, and directing them to a new one in the South Channel between the Tails of the Eastern and Western Reefs, where Pilot Vessels will then be found in from 16 to 20 fathoms water, and from 6 to 8 Miles South West of the present South Channel Buoy, that Buoy laying in Lat. 20° 58′ 30″ N. Long. 88° 4′ East of Greenwich, and in 12 fathoms water.

3d.—For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always wear by day, when other Vessels are in sight, a large *St. George's Jack*, (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant *good* Mast Head Light, by Blue Lights and Maroons used alternately every half hour and also by Guns fired every four hours, say at 8 P. M., Midnight, and 4 A. M. with good Rockets discharged at the same time.

4th.—All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 16 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th.—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 *Vertical* where best seen, but also by the discharge of a Gun, if they have any on board, as soon as they descry the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot Vessels at the Station on their own accounts no less than that of the Public as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention to Duty, or Carelessness of any kind whatever.

Fort William, the 18th October, 1841.

No. 1745.

NOTICE.

REFERRING to the Notification indicating the proposed change of the Pilot Station during the approaching S. W. Monsoon, the Marine Board hereby give Notice, that with the sanction of Government, a Chart of Captain Lloyd's late Survey of the Ground between Lacam's Channel and False Point is being lithographed for public Sale, and the following is copy of Instructions proposed by Captain Lloyd with a view to the more ready Guide of Vessels from False Point to the New Station.

"It has been proposed by the Master Attendant, "and approved of by the Marine Board, to change "the Cruizing Ground of the Pilot Vessels during "the S. W. Monsoon, or between the 15th of March "and 15th of September from their present Station "of Point Palmyras, to a position 6 or 8 miles S. W. "from the South Channel Buoy in from 16 to 20 "fathoms, and the following directions are offered as a "guide to direct Vessels from False Point Light House "to the New Cruizing Station."

"False Point Light House is in Latitude 20° "19½′ N. and Longitude 86° 47′ E., and that of the "South Channel Buoy in Latitude 20° 59′ N. and "Longitude 88° 4′ E., and bears from the former "N. 61 E. true or N. E. by E. ¼ E. by Compass, "distant 83 miles, and is laid in 12 fathoms."

"By an inspection of the Chart it will be seen that "the Bank of Soundings off Point Palmyras extend in "a direction towards the tail of the Western Sea Reef, "and the nature of the bottom (as distinguished from "that of the Hoogley deposit which is Sand and Mud "with shining specks) is a gravelly substance composed of Sand Shells and small Pebbles discharged "from the "Kunka" and other Rivers near Point "Palmyras, the lighter materials of which being "carried further out, is deposited and forms what is "called the Pilot's Ridge, which in crossing to the "N. W. shews a little less water than on either side, "and in coming from Seaward you Shoal rather "suddenly from 28 to 23 fathoms upon its Eastern "edge. It is composed of a shelly Sand or Minute "Gravel, of a reddish or rusty brown colour."

"The best Guide therefore to enable a Vessel to "direct her course from False Point to the Vessels at "the New Station will be to run down the edge of "the Pilot's Ridge, and having made the Light House "and brought it to bear about W. S. W. or S. W. by W. "and distant by computation from 10 to 15 miles, should "steer to the E. N. E, and having gradually encreased "her depth of water to 23 fathoms upon the Eastern "edge of the Ridge, she should regulate her course to "keep between it and 27 fathoms, when, by attention to "the lead and nature of the Soundings, course and "distance run from the Light House, it is almost "impossible to miss the Pilot Vessels (if the above "limits are kept within) either by getting too far to "Windward or falling to Leeward, for the Soundings "encrease so rapidly to Seaward from the proposed "New Station, that 28 fathoms will not be more "than 3 or 4 miles to the Southward of it, and 23 "fathoms the same distance to the Westward of it."

"The Soundings to Seaward of the Ridge are in "general a greenish or olive coloured mud, with "occasionally a few bits of broken Shells mixed "with it."

The price of the Chart will be Rupees 2 each, and parties desirous of being supplied are requested to send their names for registry at this Office.

Fort William,
The 9th December, 1841.

At an Annual General Meeting of Subscribers to the Bengal Civil Service Annuity Fund held this day Saturday the 1st of January 1842, at 1 o'Clock P. M. at the Town Hall.

PRESENT.

Messrs. C. W. Smith, J. F. M. Reid, R. Barlow T. H. Maddock, J. H. Young, Richd Walker, J. J. Harvey, R. Houstoun, J. Lowis, F. J. Halliday, H. M. Parker, T. R. Davidson, J. F. Hawkins, W. Bracken, N. Smith, T. Bruce, Abr. Dick, G. A. Bushby, C. Tucker, J. Hunter, H. Moore, J Trotter, R. Torrens, D. McFarlan, J. Curtis, R H. Mytton, Hon'ble R. Forbes, J. Cardew, and H. V. Bayley, Secy., &c.

Mr. C. W. Smith was unanimously called to the Chair.

The Accounts of the Fund for the past year 1840-41 were approved and passed.

An election of Managers in the room of Messrs. John Lowis, Charles Tucker, F. J Halliday, Henry Moore, and William Bracken then took place, and the following were declared elected by ballot, viz. Messrs. J. J. Harvey, J. Lowis, Charles Tucker, H. Moore and F. J. Halliday.

The Meeting proceeded to consider the dispatch of the Honorable the Court of Directors, dated the 1st of September 1841, (which had been circulated by a separate Notification dated 12th Nov 1841 to each Member of the Fund) with the New Rules which have been proposed by the Managers for the approval and votes of the Subscribers.

Read the proposed Rule 35 and Rule 36 *First* Clause, the votes for which appear under head A. of the "Vote Paper" attached to the Notification issued by the Managers, viz.

RULE 35. On the 30th of April, 1842, the Managers shall compute the excess of balance of the unappropriated funds of the Institution above the balance estimated for the same period in the prospective calculation upon which the Fund was formed. One half of the amount of such excess shall be considered to be a capital available for the purposes of the Fund, namely, for the improvement of the rate at which the Annuities accruing under Rules 8 and 11 on the 1st of May, 1842, are to be granted, to the extent of the income derivable at the rate of 6 per cent. from the said half excess of balance. In like manner on the 30th of April of every succeeding year the Managers shall compute the excess of actual balance over the estimated prospective balance at the same date, and shall appropriate the income arising therefrom to the improvement of the purchase rate of the nine Annuities accruing on the 1st of the following May. Provided, however, that in no instance shall any Annuity be granted under this rule at a rate less than the quarter of the value thereof. And in case of the annual sum to be distributed amongst the nine yearly accruing Annuities in the manner provided in the following rule, being at any time in excess of the proportions required to make up, with the balance of the subscription accounts of the retirers thereon, the half value of each of the said nine Annuities, such excess shall be reserved and be made available in the succeeding year, in addition to the income accruing from the half of the excess balance of the year, towards the reduction of the rate of premium at half value payable for the said Annuities, under the provisions and limitations above specified.

And it is further provided, that in the event of any of the nine Annuities of any year remaining untaken on the 1st of May of such year, the proportionate share of the annual sum distributed amongst the nine Annuities of that date which shall have been set to such untaken Annuity shall remain reserved for the benefit of the qualified Subscriber who may at any subsequent date claim and retire on such untaken Annuity.

RULE 36. FIRST.—After the above computation shall have been calculated, the Managers shall make the distribution of the annual sum which may be found available for the improvement of the rate at which each of the nine yearly Annuities may be granted, in the manner following. The aggregate sum available on the 1st of May of every year shall be divided into equal shares for apportionment equally amongst the nine Annuities accruing on that date according to the Statement above cited. The amount of fine which a retiring member will have to pay shall be such an amount as, with the balance of his subscription account and the sum apportioned to the Annuity reserved for him as above provided on the 1st of May of such year, will make up the half of the value of the Annuity according to his age. And it is provided, that in the event of the balance of the retirer's account alone amounting to a sum *equal* to the half value of his Annuity, the share or sum apportioned to the Annuity reserved for him shall be taken and distributed equally amongst the other Annuities of the same year in further diminution of the fines at half value which may be required from the retirers on these. In like manner if the balance of any retirer's account as aforesaid, *together with the sum or sums which may have been apportioned to the Annuity reserved for him*, amount to a sum *in excess* of the half value of his Annuity, such excess shall be taken and divided amongst the other Annuitants of the same year whose balances with the sums apportioned to them as above may fall short of the half value of Annuity.—And it is further provided that in the event of any overplus remaining out of the sum found available in any year under Rule 35, after due distribution amongst the nine Annuities of such year as above provided to the extent of making up with the balances the half value of each of the Annuities, such remaining overplus shall be held available for distribution in the next succeeding year under the general terms of this Rule.

Moved by Mr. Maddock and seconded by Mr. J. F. M. Reid—

That the Rules now read, namely, No. 35, and the 1st Clause of No. 36, be adopted.

The Votes appeared—

For their adoption—Present 32, Proxies 71, Total 101
Against ditto—Present 0, Proxies 16, Total 16

Majority in favor 85

Carried accordingly.

Read the proposed *second* Clause of Rule 36, the votes for which were called separately for under head B. in "Vote Paper" circulated to the Subscribers.

SECOND CLAUSE OF RULE 36.—It is further hereby provided, that in the event of the balance of the subscription account of a retiring Subscriber, to whom an Annuity shall have been reserved or may be granted under the foregoing clause, amounting at the period of his retirement to a sum exceeding the half value of his Annuity, the amount of such excess above the half value shall be refunded to him out of the proportionate sum which shall have been reserved to his Annuity as above. And in case of such excess of balance amounting to *more* than the proportionate sum reserved to the said Annuity, the difference shall be found out of the general funds of the institution.

Moved by Mr. Abercrombie Dick, and seconded by Mr. Maddock—

That the foregoing *Second* Clause of Rule 36 be adopted.

The Votes appeared—

For its adoption—Present 18, Proxies 43, Total 61.
Against it—Present 13, Proxies 43, Total 56.

Lost according to Rule 26 which requires a majority of 3-4ths of the Voters on the subject to pass such a Rule.

Mr. A. Dick then moved—

That the two propositions embraced in the *First* Clause of Rule 36, and in the *Second* Clause thereof being one, and the same in principle, should have been put to the Service as *one* Rule, and that therefore

the two Clauses be re-circulated as one Rule for the votes of the Subscribers.

This motion was not seconded.

Read the following Letter addressed to the Chairman by 11 Subscribers at Agra, on the subject of the above Rules :—

"We the undersigned Subscribers of the Civil "Service Annuity Fund having carefully perused the "Notification forwarded by the Managers dated 12th "November last, are decidedly of opinion that the "consideration of the Rules marked 35 and 36, "framed in consequence of a Despatch from the "Hon'ble the Court of Directors dated 1st September "1841, and proposed to be brought forward at the "Meeting of the Subscribers to be held at Calcutta "on the 1st January 1842, should be deferred "until after the receipt of the Hon'ble Court's reply "to the Quinquennial Report which was transmitted "by the Express Mail in July last; we consider this "the more necessary as the disposal of the Income on "Half of the Excess of the Annual unappropriated "balance, in the manner contemplated in the proposed "new Rules, would materially interfere with the carrying into effect the Plan proposed in the Quinquennial "Report in reducing the grant and increasing the Excess "of qualified Members, who from having completed "25 years Service and 22 of Residence in the Service "of the East-India Company, have become eligible to "retire from the Service on Annuities.

"We are also unanimously of opinion that all our "efforts should be directed to the securing of Annuities "to qualified Members so soon as they are eligible, "and that only, on the failure of this desirable object "or on an excess of Funds after that object has been "gained, that we should make any attempt to reduce "the amount to be paid by Individuals accepting "Annuities.

"We beg you will lay this letter before the Meeting "and consider us for the present at least, as voting "*against the Propositions marked A. and B.*"

H. B. Riddell.	W. Edwards.
C. Wingfield.	T. K. Lloyd.
J. S. Boldero.	

Ordered to be recorded.

[Note.—It will be pointed out to the above that the deferring the passing the Rules proposed in the Notification would have left the Service with only the old or less advantageous system of Annuities for this year, and even for a far longer period, as the Hon'ble Court do not always consider the Quinquennial Report as a document calling for immediate and special orders.]

Considered the following Extract from a despatch from the Hon'ble the Court of Directors dated 11th August 1841, which was published to the Service by the Managers' Circular of date 17th November 1841 :

"Adverting also to the legal proceedings which have taken place in the case of Mr. M. Ricketts we wish a further Rule to be framed enacting that no resignation of the Service for the purpose of accepting an Annuity shall relieve a Subscriber from the consequences (as provided in Clause 13) of dismissal by the Court of Directors if they should see cause at any time to pass such a sentence; and also that no Annuity shall, pending the result, be granted to any Subscriber whose conduct is under investigation by the local Government or under reference to the Home Authorities."

It was proposed by Mr. Richard Walker and seconded by Mr. C. Tucker.

That the Managers be directed respectfully to point out to the Hon'ble Court that no Annuity under the Rules can be granted until the Government have accepted the resignation of the Servant retiring, and that when charges are pending against any Member of the Service, the remedy is in the hands of Government by refusing acceptance of resignation, and therefore no new Rule appears to this Meeting to be necessary. But if the Court still think a rule necessary, that the following be proposed to the Service :

That no Annuity shall be granted to any Subscriber to the Fund whose conduct is under investigation by the local Government, or under reference to the Home Authorities, and no resignation of the Service for the purpose of accepting an Annuity shall relieve a Subscriber from the consequences of dismissal under Article 13 of the Rules of the Fund.

Carried unanimously.

The Chairman mentioned that six Letters had been received from Members on the above subject, all of whom (but one) specially objected to the first Clause of the Rule as embodied in the Extract from the Hon'ble Court's Despatch.

Thanks being unanimously voted to the Chairman by the Meeting, the Meeting broke up.

10th.—Parties receiving Advances, to address in each Instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whomsoever) at any period after default shall be made either in acceptance or payments of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges & expences which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

Extract of a Despatch from the Hon'ble the Court of Directors in the Financial Department, dated the 17th August, No. 13 of 1838.

5.—In future we desire that you will restrict your Advances to the great staple Articles of Indian Produce, Cotton, Silk, Sugar, Coffee, Indigo, Salt Peter and Piece Goods—and further that no Advance be made upon any Consignment the ascertained value of which shall be less than 5,000 Rupees.

6.—Several Packages of Tobacco upon which you have made Advances have been seized by the Officers of Customs, in consequence of their having been imported in illegal Packages.—Extracts from the Acts 3 and 4, Will. 4, Cap. 52, Sec. 58, and 6th and 7th Will. 4, Cap. 60, Sec. 4, relating to the Article of Tobacco, are transmitted in the Packet.

NOTICE.

CHANGE OF PILOT STATION FOR THE RIVER HOOGHLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the encreasing resort of Shipping to the Port of Calcutta, to supply Pilots at the distant Station off Point Palmyras, the arrangements as noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, bearing, according to circumstances, E. by N. a S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of water.

2d.—This Vessel will exhibit by day when any others are in sight, besides the usual Company's Ensign at her Peak, a *large Danish Jack* (red with white cross) at her Main Top Gallant Mast Head, and at night a GOOD Light in the same situation, besides burning a Blue Light every hour, and beating a Gong frequently in calm thick weather, to warn Vessels coming from the Southward of her near neighbourhood. She will *not* however have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Palmyras during next season, and directing them to a new one in the South Channel between the Tails of the Eastern and Western Reefs, where Pilot Vessels will then be found in from 16 to 20 fathoms water, and from 6 to 8 Miles South West of the present South Channel Buoy, that Buoy laying in Lat. 20° 58′ 30″ N. Long. 88° 4′ East of Greenwich, and in 12 fathoms water.

3d.—For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always wear by day, when other Vessels are in sight, a large *St. George's Jack* (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant *good* Mast Head Light, by Blue Lights and Maroons used alternately every half hour and also by Guns fired every four hours, say at 8 P. M., Midnight, and 4 A. M. with good Rockets discharged at the same time.

4th.—All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 16 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th.—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 *Vertical* where best seen, but also by the discharge of a Gun, if they have any on board, as soon as they descry the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot Vessels at the Station on their own accounts no less than that of the Public as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention to Duty, or Carelessness of any kind whatever.

(Signed) T. T. HARINGTON,
Master Attendant.

By order of the Marine Board,
C. B. GREENLAW, *Secretary.*

Fort William, the 18th October, 1841.

No. 1745.

NOTICE.

REFERRING to the Notification indicating the proposed change of the Pilot Station during the approaching S. W. Monsoon, the Marine Board hereby give Notice, that with the sanction of Government, a Chart of Captain Lloyd's late Survey of the Ground between Lacam's Channel and False Point is being lithographed for public Sale, and the following is copy of Instructions proposed by Captain Lloyd with a view to the more ready Guide of Vessels from False Point to the New Station.

"It has been proposed by the Master Attendant, "and approved of by the Marine Board, to change "the Cruizing Ground of the Pilot Vessels during "the S. W. Monsoon, or between the 15th of March "and 15th of September *from their present Station* "of Point Palmyras, to a position 6 or 8 miles S. W. "from the South Channel Buoy in from 16 to 20 "fathoms, and the following directions are offered as a "guide to direct Vessels from False Point Light House "to the New Cruizing Station."

"False Point Light House is in Latitude 20° "19½′ N. and Longitude 86° 47′ E., and that of the "South Channel Buoy in Latitude 20° 59′ N. and "Longitude 88° 4′ E., and bears from the former "N. 61 E true or N. E. by E. ¼ E. by Compass, "distant 83 miles, and is laid in 12 fathoms."

"By an inspection of the Chart it will be seen that "the Bank of Soundings off Point Palmyras extend in "a direction towards the tail of the Western Sea Reef, "and the nature of the bottom (as distinguished from "that of the Hoogley deposit which is Sand and Mud "with shining specks) is a gravelly substance composed of Sand Shells and small Pebbles discharged "from the "Kunka" and other Rivers near Point "Palmyras, *the lighter materials of which being* "carried further out, is deposited and forms what is "called the Pilot's Ridge, which in crossing to the "N. W. shews a little less water than on either side, "and in coming from Seaward you Shoal rather "suddenly from 28 to 23 fathoms upon its Eastern "edge. It is composed of a shelly Sand or Minute "Gravel, of a reddish or rusty brown colour."

"The best Guide therefore to enable a Vessel to "direct her course from False Point to the Vessels at "the New Station will be to run down the edge of "the Pilot's Ridge, and having made the Light House "and brought it to bear about W. S. W. or S. W. by W. "and distant by computation from 10 to 15 miles, should "steer to the E. N. E., and having gradually encreased "her depth of water to 23 fathoms upon the Eastern "edge of the Ridge, she should regulate her course to "keep between it and 27 fathoms, when, by attention to "the lead and nature of the Soundings, course and "distance run from the Light House, it is almost "impossible to miss the Pilot Vessels (if the above "limits are kept within) either by getting too far to "Windward or falling to Leeward, for the Soundings "encrease so rapidly to Seaward from the proposed "New Station, that 28 fathoms will not be more "than 3 or 4 miles to the Southward of it, and 23 "fathoms the same distance to the Westward of it."

"The Soundings to Seaward of the Ridge are in "general a greenish or olive coloured mud, with "occasionally a few bits of broken Shells mixed "with it."

(Sd.) RD. LLOYD, *Capt. I. N.*,
Offg. M. S. Genl.

The price of the Chart will be Rupees 2 each, and parties desirous of being supplied are requested to send their names for registry at this Office.

FORT WILLIAM,
LEGISLATIVE DEPARTMENT,
THE 10TH JANUARY, 1842.

The following Extract from the Proceedings of the Right Hon'ble the Governor General in Council, in the Legislative Department, under date the 10th of January 1842, is published for general information:

Read a second time the Draft of a proposed Act, dated 31st May 1841, and published in the Calcutta Gazette of the 2d of June, for consolidating, amending and extending the law relating to the Registration of Assurances.

Resolution—The Right Hon'ble the Governor General in Council resolves that the following Amended Draft on the subject be re-published for general information:

ACT No. —— OF 1842.

An Act for consolidating, amending and extending the law relating to the Registration of Assurances.

I. It is hereby enacted, that Regulations XXXVI. 1793, XXVIII. 1795, XVII. 1803, and Section 17, Regulation VIII. 1805 so far as it relates to Regulation XVII. 1803, also Section 32, Regulation XII. 1805, Regulation XX. 1812 and Regulation IV. 1824 of the Bengal Code, Regulation XVII. 1802 and Regulation XI. of 1831 of the Madras Code, and Regulation IX. 1827 of the Bombay Code and Act No. XXX. 1838, be repealed, from the first day of in the year of our Lord

II. And it is hereby enacted, that the Local Government of each Presidency shall on or before the day and year aforesaid, establish at and for each Presidency Town, and each Zillah Station, and such Districts of smaller extent as may be deemed necessary an Office for the Registering of Assurances, and shall appoint such persons to superintend those offices, and shall assign to them such salaries and establishments, and shall take such securities for the due performance of their duties, and shall frame such rules for their guidance not inconsistent with this Act, as may seem fit. And every original and final judgment decree or order of any Court and every Will or Codicil, or written authority from any husband to a wife to adopt after his decease, any son, when any interest in land may be claimed by virtue of such adoption, and every Contract, Memorandum, Receipt or other writing whatsoever by which any estate or interest in any lands or any interest in the produce growing, or to be grown upon any lands shall be created, transferred or otherwise affected, and every writing which shall be the evidence of any act or matter whereby any such estate or interest shall be created, transferred or otherwise affected, shall be considered as an Assurance affecting such lands within the meaning of this Act.

III. And it is hereby enacted, that all Assurances to be made, passed or executed after the day and year aforesaid by which any lands within the said Presidency Towns, or the said Zillahs shall be in any way affected at Law or in Equity may be registered at the local Register Office of the Town or Zillah or other district in which the said lands or the greater part of them may be situated in the manner hereinafter directed.

IV. And it is hereby enacted, that where any Will, Codicil, or written authority as aforesaid, by which any lands within the said Presidency Towns, or the said Zillahs shall be in any way affected at Law or in Equity, shall have been made, passed or executed on or before the day and year aforesaid, and the Testator shall die after the same day and year, such Assurance may be in like manner registered at the local Register Office of the Town or Zillah as the case may be.

V. And it is hereby enacted, that where any lands shall form part of the personal estate of any person deceased, every Will or Codicil duly proved or Letters of Administration or written authority as aforesaid by which the personal representative of such person deceased shall be appointed, or by which the appointment of such personal representative shall be revoked, or by which the right to the personal representation of such person deceased shall be in any way regulated, shall be considered as affecting such land.

VI. And whereas it may often happen that some time will elapse pending the negociation for a sale or other contract in regard to interests in land, and that often by reason of the illness or absence of parties or from other causes, the written transfer of such property will be delayed for want of due execution by all the requisite parties: And whereas when conveyances are executed for a temporary purpose merely it may often be inconvenient and occasion unnecessary expence to register a conveyance, containing all the particulars of the transaction, it is hereby enacted, that any person may require a Caveat according to form A appended to this Act, to be entered in the Register for any Town or District, against his own acts and in favor of any other person, for the protection of any Assurance affecting any lands within such Town or District, which shall have been made and executed, or shall be in progress, or shall have been in contemplation at the time of entering such Caveat.

VII. And it is hereby enacted, that every requisition for a Caveat shall be made in writing, and shall be signed by the grantor thereof, and shall name or describe the person in whose favor the Caveat is to be entered, and shall specify or describe the lands which it is intended should be affected thereby, and the time during which such Caveat shall remain in force, which time shall not exceed six months from the date of the Caveat.

VIII. And it is hereby enacted, that in order that the establishment of the said Office shall be neither a source of expence nor revenue, it shall be lawful for the Governor General of India in Council from time to time to determine the fees which shall be paid to the Registrar of every Register Office within the respective Presidencies, for the acts and things authorized or required by this Act; provided that such fees shall be in proportion to the length of the assurance or other document registered, and that a Schedule of the same and of all alterations made at any time in the amount thereof shall be published in the Gazette; provided also that in addition to such fees a charge may be demanded according to the ordinary rates of Section writing when the assurance, or other document copy, or extract, shall be written in any European language.

IX. And it is hereby enacted that every requisition for a Caveat at which may be deposited at the Register Office, shall be registered in the same Register, and under the same head, and in the same manner, as the Assurance to be protected by such Caveat would, under the provisions of this Act, have been registered if the same had been registered at the time of entering such Caveat.

X. And it is hereby enacted, that the Registrar to whom an Assurance may be presented for registry shall immediately note upon it the day, hour and minute of presentation, and shall cause an exact copy of it to be entered in a book according to the order in which it is presented, or if two or more Assurances shall be received at the same time then according to their respective dates, and shall attest the copy with his signature and with the signature of the party by whom the deed is presented, and shall then return the original with a certificate under his signature endorsed thereon specifying the day, hour and minute of receipt and of registry with references to the book containing the registry thereof, and the page and number under which the same shall have been entered therein.

XI. And it is hereby enacted, that every Assurance by this Act authorized to be registered (except as hereinafter provided) shall, so far as regards any lands to be affected thereby, be void as against any person claiming under any subsequent Assurance duly registered, unless the prior Assurance shall have been duly registered before the registration of the subsequent Assurance; any alleged notice of such prior Assurance notwithstanding.

XII. Provided however, and it is hereby enacted, that every Will, Codicil, Letters of Administration, or written authority as aforesaid, which shall be registered within the space of one year after the death of the Testator, shall be as valid and effectual as if the same had been registered immediately after the death of such Testator.

XIII. And it is hereby enacted, that where any Assurance for the protection of which a Caveat shall have been entered, shall be executed by the grant or

of such Caveat, or by any person who shall claim under him, and shall also be executed by the person in whose favor such Caveat shall have been entered, or by his Executors, Administrators, or any other person entitled to the benefit thereof, and shall be duly registered within the time not exceeding six months for which the Caveat shall have been registered, such Assurance shall be entitled to the same preference and protection as if the same had been registered at the time of entering the Caveat.

XIV. And it is hereby enacted, that any person may apply to a Register Office for an office copy or extract of any Assurance or other document registered thereat; and thereupon such copy or extract shall be prepared and a certificate signed by the Registrar shall be written or endorsed thereupon, which certificate shall state that such copy or extract is an examined copy or extract of the Assurance or other document registered; and shall specify the book and the place in which such Assurance or other document has been registered.

XV. And it is hereby enacted, that any person may on application at a Register Office, be allowed to inspect and search any of the registers to be kept at the said offices; and to take extracts from any such registers, subject to such Regulations as shall be made in pursuance of this Act.

XVI. And it is hereby enacted, that all office copies, extracts and certificates to be provided under this Act, and all receipts to be given under this Act for the payment of fees and for deposits, unless the same be required to be given in evidence in a Court of Civil Justice, shall be exempted from Stamp duty.

XVII. And it is hereby enacted, that every copy of or extract from any Assurance or other document registered at any Register Office, shall, if certified under the signature of the Registrar be admitted in all Courts as evidence of the due registration of such Assurance or other document, or of such part of such Assurance or other document as such copy or extract shall purport to contain, without proof of the hand writing of the certifying Officer.

XVIII. And it is hereby enacted, that the fees for registering any Assurance or for entering any Caveat, shall be brought or sent to the Register Office, with the document to be registered and the fees for making office copies of and extracts from any registered documents, shall be paid before such office copies or extracts shall be delivered, and the fees for the several other acts and things for which fees are in the said Schedule expressed to be payable, shall be paid before such acts or things respectively shall be done or permitted; and no person shall be entitled to the delivery from a Register Office, of any compared or examined document, office copy, extract or certificate, or to make any search in the said Register Office, until the fees payable thereon shall have been paid.

XIX. And it is hereby enacted, that in case of the death or absence on leave of any person appointed by the Local Government to register Assurances under this Act, it shall be lawful for the Zillah Judge or other Officer specially authorized by the Local Government, to appoint any person whom he may think proper to take temporary charge of the office and to register Assurances in the same manner as if such person had been appointed to the office by the orders of the Local Government.

XX. And it is hereby enacted, that any person fraudulently removing any registered copy of any Assurance or other document from the office of Registry, or fraudulently making any alteration or erasure therein, or fraudulently destroying, tearing, or effacing the same, or any part thereof, shall be liable to be imprisoned with hard labor for any period not exceeding fourteen nor less than four years.

IT is hereby notified for general information—

Second.—Letters and Newspapers addressed to France as well as those to other foreign countries, with which France is the channel of communication (if the latter are expressly directed to be so sent) will be made up in Packets and sent to the French Post Master at Marseilles; but Letters for Foreign Countries, other than France, if not specially directed to France, will be included in the Packets or England. NOTICE.

CHANGE OF PILOT STATION FOR THE RIVER HOOGHLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the encreasing resort of Shipping to the Port of Calcutta, to supply Pilots at the distant Station off Point Palmyras, the arrangements as noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, bearing, according to circumstances, E. by N. a S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of water.

2d.—This Vessel will exhibit by day when any others are in sight, besides the usual Company's Ensign at her Peak, a *large Danish Jack* (red with white cross) at her Main Top Gallant Mast Head, and at night a GOOD Light in the same situation, besides burning a Blue Light every hour, and beating a Gong frequently in calm thick weather, to warn Vessels coming from the Southward of her near neighbourhood. She will *not* however have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Palmyras during next season, and directing them to a new one in the South Channel between the Tails of the Eastern and Western Reefs, where Pilot Vessels will then be found in from 16 to 20 fathoms water, and from 6 to 8 Miles South West of the present South Channel Buoy, that Buoy laying in Lat. 20° 58′ 30″ N. Long. 88° 4′ East of Greenwich, and in 12 fathoms water.

3d.—For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always wear by day, when other Vessels are in sight, a large *St. George's Jack* (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant *good* Mast Head Light, by Blue Lights and Maroons used alternately every half hour and also by Guns fired every four hours, say at 8 P. M., Midnight, and 4 A. M. with good Rockets discharged at the same time.

4th.—All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 16 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th.—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 *Vertical* where best seen, but also by the discharge of a Gun, if they have any on board, as soon as they descry the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot Vessels at the Station on their own accounts no less than that of the Public as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention to Duty, or Carelessness of any kind whatever.

Master Attendant.

"It has been proposed by the Master Attendant, "and approved of by the Marine Board, to change "the Cruizing Ground of the Pilot Vessels during "the S. W. Monsoon, or between the 15th of March "and 15th of September from their present Station "of Point Palmyras, to a position 6 or 8 miles S. W. "from the South Channel Buoy in from 16 to 20 "fathoms, and the following directions are offered as a "guide to direct Vessels from False Point Light House "to the New Cruizing Station."

"False Point Light House is in Latitude 20° "19½′ N. and Longitude 86° 47′ E., and that of the "South Channel Buoy in Latitude 20° 59′ N. and "Longitude 88° 4′ E., and bears from the former "N. 61 E. true or N. E. by E. ¼ E. by Compass, "distant 83 miles, and is laid in 12 fathoms."

"By an inspection of the Chart it will be seen that "the Bank of Soundings off Point Palmyras extend in "a direction towards the tail of the Western Sea Reef, "and the nature of the bottom (as distinguished from "that of the Hoogley deposit which is Sand and Mud "with shining specks) is a gravelly substance com-"posed of Sand Shells and small Pebbles discharged "from the "Kunka" and other Rivers near Point "Palmyras, the lighter materials of which being "carried further out, is deposited and forms what is "called the Pilot's Ridge, which in crossing to the "N. W. shews a little less water than on either side, "and in coming from Seaward you Shoal rather "suddenly from 28 to 23 fathoms upon its Eastern "edge. It is composed of a shelly Sand or Minute "Gravel, of a reddish or rusty brown colour."

"The best Guide therefore to enable a Vessel to "direct her course from False Point to the Vessels at "the New Station will be to run down the edge of "the Pilot's Ridge, and having made the Light House "and brought it to bear about W. S. W. or S. W. by W. "and distant by computation from 10 to 15 miles, should "steer to the E. N. E, and having gradually encreased "her depth of water to 23 fathoms upon the Eastern "edge of the Ridge, she should regulate her course to "keep between it and 27 fathoms, when, by attention to "the lead and nature of the Soundings, course and "distance run from the Light House, it is almost "impossible to miss the Pilot Vessels (if the above "limits are kept within) either by getting too far to "Windward or falling to Leeward, for the Soundings "encrease so rapidly to Seaward from the proposed "New Station, that 28 fathoms will not be more "than 3 or 4 miles to the Southward of it, and 23 "fathoms the same distance to the Westward of it."

"The Soundings to Seaward of the Ridge are in "general a greenish or olive coloured mud, with "occasionally a few bits of broken Shells mixed "with it."

FORT WILLIAM,
LEGISLATIVE DEPARTMENT,
THE 10TH JANUARY, 1842.

The following Extract from the Proceedings of the Right Hon'ble the Governor General in Council, in the Legislative Department, under date the 10th of January 1842, is published for general information:

Read a second time the Draft of a proposed Act, dated 31st May 1841, and published in the Calcutta Gazette of the 2d of June, for consolidating, amending and extending the law relating to the Registration of Assurances.

Resolution.—The Right Hon'ble the Governor General in Council resolves that the following Amended Draft on the subject be re-published for general information:

ACT No. —— OF 1842.

An Act for consolidating, amending and extending the law relating to the Registration of Assurances.

I. It is hereby enacted, that Regulations XXXVI. 1793, XXVIII. 1795, XVII. 1808, and Section 17, Regulation VIII. 1805 so far as it relates to Regulation XVII. 1803, also Section 32, Regulation XII. 1805, Regulation XX. 1812 and Regulation IV. 1824 of the Bengal Code, Regulation XVII. 1802 and Regulation XI. of 1831 of the Madras Code, and Regulation IX. 1827 of the Bombay Code and Act No. XXX. 1838, be repealed from the first day of in the year of our

II. And it is hereby enacted, that the Local Government of each Presidency shall on or before the day and year aforesaid, establish at and for each Presidency Town, and each Zillah Station, and such Districts of smaller extent as may be deemed necessary an Office for the Registering of Assurances, and shall appoint such persons to superintend those offices, and shall assign to them such salaries and establishments, and shall take such securities for the due performance of their duties, and shall frame such rules for their guidance not inconsistent with this Act, as may seem fit. And every original and final judgment decree or order of any Court and every Will or Codicil, or written authority from any husband to a wife to adopt after his decease, any son, when any interest in land may be claimed by virtue of such adoption, and every Contract, Memorandum, Receipt or other writing whatsoever by which any estate or interest in any lands or any interest in the produce growing, or to be grown upon any lands shall be created, transferred or otherwise affected, and every writing which shall be the evidence of any act or matter whereby any such estate or interest shall be created, transferred or otherwise affected, shall be considered as an Assurance affecting such lands within the meaning of this Act.

III. And it is hereby enacted, that all Assurances to be made, passed or executed after the day and year aforesaid by which any lands within the said Presidency Towns, or the said Zillahs shall be in any way affected at Law or in Equity may be registered at the local Register Office of the Town or Zillah or other district in which the said lands or the greater part of them may be situated in the manner hereinafter directed.

IV. And it is hereby enacted, that where any Will, Codicil, or written authority as aforesaid, by which any lands within the said Presidency Towns, or the said Zillahs shall be in any way affected at Law or in Equity, shall have been made, passed or executed on or before the day and year aforesaid, and the Testator shall die after the same day and year, such Assurance may be in like manner registered at the local Register Office of the Town or Zillah as the case may be.

V. And it is hereby enacted, that where any lands shall form part of the personal estate of any person deceased, every Will or Codicil duly proved or Letters of Administration or written authority as aforesaid by which the personal representative of such person deceased shall be appointed, or by which the appointment of such personal representative shall be revoked, or by which the right to the personal representation of such person deceased shall be in any way regulated, shall be considered as affecting such land.

VI. And whereas it may often happen that some time will elapse pending the negociation for a sale or other contract in regard to interests in land, and that often by reason of the illness or absence of parties or from other causes, the written transfer of such property will be delayed for want of due execution by all the requisite parties: And whereas when conveyances are executed for a temporary purpose merely it may often be inconvenient and occasion unnecessary expence to register a conveyance, containing all the particulars of the transaction, it is hereby enacted, that any person may require a Caveat according to form A appended to this Act, to be entered in the Register for any Town or District, against his own acts and in favor of any other person, for the protection of any Assurance affecting any lands within such Town or District, which shall have been made and executed, or shall be in progress, or shall have been in contemplation at the time of entering such Caveat.

VII. And it is hereby enacted, that every requisition for a Caveat shall be made in writing, and shall be signed by the grantor thereof, and shall name or describe the person in whose favor the Caveat is to be entered, and shall specify or describe the lands which it is intended should be affected thereby, and the time during which such Caveat shall remain in force, which time shall not exceed six months from the date of the Caveat.

VIII. And it is hereby enacted, that in order that the establishment of the said Office shall be neither a source of expence nor revenue, it shall be lawful for the Governor General of India in Council from time to time to determine the fees which shall be paid to the Registrar of every Register Office within the respective Presidencies, for the acts and things authorized or required by this Act; provided that such fees shall be in proportion to the length of the assurance or other document registered, and that a Schedule of the same and of all alterations made at any time in the amount thereof shall be published in the Gazette; provided also that in addition to such fees a charge may be demanded according to the ordinary rates of Section writing when the assurance, or other document copy, or extract, shall be written in any European language.

IX. And it is hereby enacted that every requisition for a Caveat at which may be deposited at the Register Office, shall be registered in the same Register, and under the same head, and in the same manner, as the Assurance to be protected by such Caveat would, under the provisions of this Act, have been registered if the same had been registered at the time of entering such Caveat.

X And it is hereby enacted, that the Registrar to whom an Assurance may be presented for registry shall immediately note upon it the day, hour and minute of presentation, and shall cause an exact copy of it to be entered in a book according to the order in which it is presented, or if two or more Assurances shall be received at the same time then according to their respective dates, and shall attest the copy with his signature and with the signature of the party by whom the deed is presented, and shall then return the original with a certificate under his signature endorsed thereon specifying the day, hour and minute of receipt and of registry with references to the book containing the registry thereof, and the page and number under which the same shall have been entered therein

XI And it is hereby enacted, that every Assurance by this Act authorized to be registered (except as hereinafter provided) shall, so far as regards any lands to be affected thereby, be void as against any person claiming under any subsequent Assurance duly registered, unless the prior Assurance shall have been duly registered before the registration of the subsequent Assurance, any alleged notice of such prior Assurance notwithstanding.

XII Provided however, and it is hereby enacted, that every Will, Codicil, Letters of Administration, or written authority as aforesaid which shall be registered within the space of one year after the death of the Testator, shall be as valid and effectual as if the same had been registered immediately after the death of such Testator.

XIII And it is hereby enacted, that where any Assurance for the protection of which a Caveat shall have been entered shall be executed by the grantor of such Caveat, or by any person who shall claim under him, and shall also be executed by the person in whose favor such Caveat shall have been entered, or by his Executors, Administrators, or any other person entitled to the benefit thereof, and shall be duly registered within the time not exceeding six months for which the Caveat shall have been registered, such Assurance shall be entitled to the same preference and protection as if the same had been registered at the time of entering the Caveat

XIV. And it is hereby enacted, that any person may apply to a Register Office for an office copy or extract of any Assurance or other document registered thereat; and thereupon such copy or extract shall be prepared and a certificate signed by the Registrar shall be written or endorsed thereupon, which certificate shall state that such copy or extract is an examined copy or extract of the Assurance or other document registered; and shall specify the book and the place in which such Assurance or other document has been registered.

XV And it is hereby enacted, that any person may on application at a Register Office, be allowed to inspect and search any of the registers to be kept at the said offices; and to take extracts from any such registers, subject to such Regulations as shall be made in pursuance of this Act.

XVI. And it is hereby enacted, that all office copies, extracts and certificates to be provided under this Act, and all receipts to be given under this Act for the payment of fees and for deposits, unless the same be required to be given in evidence in a Court of Civil Justice, shall be exempted from Stamp duty.

XVII And it is hereby enacted, that every copy of or extract from any Assurance or other document registered at any Register Office, shall, if certified under the signature of the Registrar be admitted in all Courts as evidence of the due registration of such Assurance or other document, or of such part of such Assurance or other document as such copy or extract shall purport to contain, without proof of the hand writing of the certifying Officer.

XVIII. And it is hereby enacted, that the fees for registering any Assurance or for entering any Caveat, shall be brought or sent to the Register Office, with the document to be registered and the fees for making office copies of and extracts from any registered documents, shall be paid before such office copies or extracts shall be delivered, and the fees for the several other acts and things for which fees are in the said Schedule expressed to be payable, shall be paid before such acts or things respectively shall be done or permitted; and no person shall be entitled to the delivery from a Register Office, of any compared or examined document, office copy, extract or certificate, or to make any search in the said Register Office, until the fees payable thereon shall have been paid

XIX. And it is hereby enacted, that in case of the death or absence on leave of any person appointed by the Local Government to register Assurances under this Act, it shall be lawful for the Zillah Judge or other Officer specially authorized by the Local Government, to appoint any person whom he may think proper to take temporary charge of the office and to register Assurances in the same manner as if such person had been appointed to the office by the orders of the Local Government.

XX And it is hereby enacted, that any person fraudulently removing any registered copy of any Assurance or other document from the office of Registry, or fraudulently making any alteration or erasure therein, or fraudulently destroying, tearing, or effacing the same, or any part thereof, shall be liable to be imprisoned with hard labor for any period not exceeding fourteen nor less than four years.

NOTICE.

CHANGE OF PILOT STATION FOR THE RIVER HOOGHLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the encreasing resort of Shipping to the Port of Calcutta, to supply Pilots at the distant Station off Point Palmyras, the arrangements as noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, beating, according to circumstances, E. by N. a S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of water.

2d.—This Vessel will exhibit by day when any others are in sight, besides the usual Company's Ensign at her Peak, a *large Danish Jack* (red with white cross) at her Main Top Gallant Mast Head, and at night a GOOD Light in the same situation, besides burning a Blue Light every hour, and beating a Gong frequently in calm thick weather, to warn Vessels coming from the Southward of her near neighbourhood. She will *not* however have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Palmyras during next season, and directing them to a new one in the South Channel between the Tails of the Eastern and Western Reefs, where Pilot Vessels will then be found in from 16 to 20 fathoms water, and from 6 to 8 Miles South West of the present South Channel Buoy, that Buoy laying in Lat. 20° 58′ 30″ N. Long. 88° 4′ East of Greenwich, and in 12 fathoms water.

3d.—For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always wear by day, when other Vessels are in sight, a large *St. George's Jack* (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant *good* Mast Head Light, by Blue Lights and Maroons used alternately every half hour and also by Guns fired every four hours, say at 8 P. M., Midnight, and 4 A. M. with good Rockets discharged at the same time.

4th.—All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 16 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th.—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 *Vertical* where best seen, but also by the discharge of a Gun, if they have any on board, as soon as they descry the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot Vessels at the Station on their own accounts no less than that of the Public as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention to Duty, or Carelessness of any kind whatever.

Master Attendant.

By order of the Marine Board,

Fort William, the 18th October, 1841.

No. 1745.

NOTICE.

REFERRING to the Notification indicating the proposed change of the Pilot Station during the approaching S. W. Monsoon, the Marine Board hereby give Notice, that with the sanction of Government, a Chart of Captain Lloyd's late Survey of the Ground between Lacam's Channel and False Point is being lithographed for public Sale, and the following is copy of Instructions proposed by Captain Lloyd with a view to the more ready Guide of Vessels from False Point to the New Station.

"It has been proposed by the Master Attendant, "and approved of by the Marine Board, to change "the Cruizing Ground of the Pilot Vessels during "the S. W. Monsoon, or between the 15th of March "and 15th of September from their present Station "of Point Palmyras, to a position 6 or 8 miles S. W. "from the South Channel Buoy in from 16 to 20 "fathoms, and the following directions are offered as a "guide to direct Vessels from False Point Light House "to the New Cruizing Station."

"False Point Light House is in Latitude 20° "19½′ N. and Longitude 86° 47′ E., and that of the "South Channel Buoy in Latitude 20° 59′ N. and "Longitude 88° 4′ E., and bears from the former "N. 61 E true or N. E. by E. ¼ E. by Compass, "distant 83 miles, and is laid in 12 fathoms."

"By an inspection of the Chart it will be seen that "the Bank of Soundings off Point Palmyras extend in "a direction towards the tail of the Western Sea Reef, "and the nature of the bottom (as distinguished from "that of the Hoogley deposit which is Sand and Mud "with shining specks) is a gravelly substance composed of Sand Shells and small Pebbles discharged "from the "Kunka" and other Rivers near Point "Palmyras, the lighter materials of which being "carried further out, is deposited and forms what is "called the Pilot's Ridge, which in crossing to the "N. W. shews a little less water than on either side, "and in coming from Seaward you Shoal rather "suddenly from 28 to 23 fathoms upon its Eastern "edge. It is composed of a shelly Sand or Minute "Gravel, of a reddish or rusty brown colour."

"The best Guide therefore to enable a Vessel to "direct her course from False Point to the Vessels at "the New Station will be to run down the edge of "the Pilot's Ridge, and having made the Light House "and brought it to bear about W. S. W. or S. W. by W. "and distant by computation from 10 to 15 miles, should "steer to the E. N. E, and having gradually encreased "her depth of water to 23 fathoms upon the Eastern "edge of the Ridge, she should regulate her course to "keep between it and 27 fathoms, when, by attention to "the lead and nature of the Soundings, course and "distance run from the Light House, it is almost "impossible to miss the Pilot Vessels (if the above "limits are kept within) either by getting too far to "Windward or falling to Leeward, for the Soundings "encrease so rapidly to Seaward from the proposed "New Station, that 28 fathoms will not be more "than 3 or 4 miles to the Southward of it, and 23 "fathoms the same distance to the Westward of it."

"The Soundings to Seaward of the Ridge are in "general a greenish or olive coloured mud, with "occasionally a few bits of broken Shells mixed "with it."

The price of the Chart will be Rupees 2 each, and parties desirous of being supplied are requested to send their names for registry at this Office.

The rate of Exchange to be determined from time to time at the place where the Advance is made under the Court's orders.

3d.—For re-payment of the Advance, Bills of Exchange to be drawn in triplicate, at six months sight, at the rate of—

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium,* Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

* *Or such public Officers or authorised Agents of the East India Company as may be specified.*

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit to sell the Goods, for the purpose of re-paying the Company the amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued, the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor, and it in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills, and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England; and in cases where interest shall have accrued, such interest shall be computed at the rate or rates per cent. at which the Company have allowed Discount during the period for which such interest is chargeable.

9th.—Parties or their Agents will be required to Insure the Goods from fire, and deposit the Policies with the East India Company; such Insurance to take effect from the date of the termination of the Sea risk. Should however the Parties or their Agents fail to effect such Insurance, the East India Company shall be at liberty to Insure the Goods, the expense of which shall be reimbursed to them previously to their making over the Goods to those Parties or their Agents.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whomsoever) at any period after default shall be made either in acceptance or payments of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges or expences which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

Extract of a Despatch from the Hon'ble the Court of Directors in the Financial Department, dated the 17th August, No 13 of 1838.

5.—In future we desire that you will restrict your Advances to the great staple Articles of Indian Produce, Cotton, Silk, Sugar, Coffee, Indigo, Salt Peter and Piece Goods—and further that no Advance be made upon any Consignment the ascertained value of which shall be less than 5,000 Rupees.

FORT WILLIAM,
LEGISLATIVE DEPARTMENT,

THE 10TH JANUARY, 1842.

The following Extract from the Proceedings of the Right Hon'ble the Governor General in Council, in the Legislative Department, under date the 10th of January 1842, is published for general information:

Read a second time the Draft of a proposed Act, dated 31st May 1841, and published in the Calcutta Gazette of the 2d of June, for consolidating, amending and extending the law relating to the Registration of Assurances.

Resolution—The Right Hon'ble the Governor General in Council resolves that the following Amended Draft on the subject be re-published for general information:

ACT No. —— OF 1842.

An Act for consolidating, amending and extending the law relating to the Registration of Assurances.

I. It is hereby enacted, that Regulations XXXVI. 1793, XXVIII. 1795, XVII. 1803, and Section 17, Regulation VIII. 1805 so far as it relates to Regulation XVII. 1803, also Section 32, Regulation XII. 1805, Regulation XX. 1812 and Regulation IV. 1824 of the Bengal Code, Regulation XVII. 1802 and Regulation XI. of 1831 of the Madras Code, and Regulation IX. 1827 of the Bombay Code and Act No. XXX. 1838, be repealed, from the first day of in the year of our Lord

II. And it is hereby enacted, that the Local Government of each Presidency shall on or before the day and year aforesaid, establish at and for each Presidency Town, and each Zillah Station, and such Districts of smaller extent as may be deemed necessary an Office for the Registering of Assurances, and shall appoint such persons to superintend those offices, and shall assign to them such salaries and establishments, and shall take such securities for the due performance of their duties, and shall frame such rules for their guidance not inconsistent with this Act, as may seem fit. And every original and final judgment decree or order of any Court and every Will or Codicil, or written authority from any husband to a wife to adopt after his decease, any son, when any interest in land may be claimed by virtue of such adoption, and every Contract Memorandum, Receipt or other writing whatsoever by which any estate or interest in any lands or any interest in the produce growing, or to be grown upon any lands shall be created, transferred or otherwise affected, and every writing which shall be the evidence of any act or matter whereby any such estate or interest shall be created, transferred or otherwise affected, shall be considered as an Assurance affecting such lands within the meaning of this Act.

III. And it is hereby enacted, that all Assurances to be made, passed or executed after the day and year aforesaid by which any lands within the said Presidency Towns, or the said Zillahs shall be in any way affected at Law or in Equity may be registered at the local Register Office of the Town or Zillah or other district in which the said lands or the greater part of them may be situated in the manner hereinafter directed.

IV And it is hereby enacted, that where any Will, Codicil, or written authority as aforesaid, by which any lands within the said Presidency Towns, or the said Zillahs shall be in any way affected at Law or in Equity, shall have been made, passed or executed on or before the day and year aforesaid, and the Testator shall die after the same day and year, such Assurance may be in like manner registered at the local Register Office of the Town or Zillah as the case may be.

V And it is hereby enacted, that where any lands shall form part of the personal estate of any person deceased, every Will or Codicil duly proved or Letters of Administration or written authority as aforesaid by which the personal representative of such person deceased shall be appointed, or by which the appointment of such personal representative shall be revoked, or by which the right to the personal representation of such person deceased shall be in any way regulated, shall be considered as affecting such land

VI. And whereas it may often happen that some time will elapse pending the negociation for a sale or other contract in regard to interests in land, and that often by reason of the illness or absence of parties or from other causes, the written transfer of such property will be delayed for want of due execution by all the requisite parties: And whereas when conveyances are executed for a temporary purpose merely it may often be inconvenient and occasion unnecessary expence to register a conveyance, containing all the particulars of the transaction, it is hereby enacted, that any person may require a Caveat according to form A appended to this Act, to be entered in the Register for any Town or District, against his own acts and in favor of any other person, for the protection of any Assurance affecting any lands within such Town or District, which shall have been made and executed, or shall be in progress, or shall have been in contemplation at the time of entering such Caveat.

VII. And it is hereby enacted, that every requisition for a Caveat shall be made in writing, and shall be signed by the grantor thereof, and shall name or describe the person in whose favor the Caveat is to be entered, and shall specify or describe the lands which it is intended should be affected thereby, and the time during which such Caveat shall remain in force, which time shall not exceed six months from the date of the Caveat.

VIII. And it is hereby enacted, that in order that the establishment of the said Office shall be neither a source of expence nor revenue, it shall be lawful for the Governor General of India in Council, from time to time to determine the fees which shall be paid to the Registrar of every Register Office within the respective Presidencies, for the acts and things authorized or required by this Act; provided that such fees shall be in proportion to the length of the assurance or other document registered, and that a Schedule of the same and of all alterations made at any time in the amount thereof shall be published in the Gazette; provided also that in addition to such fees a charge may be demanded according to the ordinary rates of Section writing when the assurance, or other document copy, or extract, shall be written in any European language.

IX. And it is hereby enacted that every requisition for a Caveat at which may be deposited at the Register Office, shall be registered in the same Register, and under the same head, and in the same manner, as the Assurance to be protected by such Caveat would, under the provisions of this Act, have been registered if the same had been registered at the time of entering such Caveat.

X. And it is hereby enacted, that the Registrar to whom an Assurance may be presented for registry shall immediately note upon it the day, hour and minute of presentation, and shall cause an exact copy of it to be entered in a book according to the order in which it is presented, or if two or more Assurances shall be received at the same time then according to their respective dates, and shall attest the copy with his signature and with the signature of the party by whom the deed is presented, and shall then return the original with a certificate under his signature endorsed thereon specifying the day, hour and minute of receipt and of registry with references to the book containing the registry thereof, and the page and number under which the same shall have been entered therein.

XI. And it is hereby enacted, that every Assurance by this Act authorized to be registered (except as hereinafter provided) shall, so far as regards any lands to be affected thereby, be void as against any person claiming under any subsequent Assurance duly registered, unless the prior Assurance shall have been duly registered before the registration of the subsequent Assurance, any alleged notice of such prior Assurance notwithstanding.

XII. Provided however, and it is hereby enacted, that every Will, Codicil, Letters of Administration, or written authority as aforesaid, which shall be registered within the space of one year after the death of the Testator, shall be as valid and effectual as if the same had been registered immediately after the death of such Testator.

XIII. And it is hereby enacted, that where any Assurance for the protection of which a Caveat shall have been entered shall be executed by the grantor of such Caveat, or by any person who shall claim under him, and shall also be executed by the person in whose favor such Caveat shall have been entered, or by his Executors, Administrators, or any other person entitled to the benefit thereof, and shall be duly registered within the time not exceeding six months for which the Caveat shall have been registered, such Assurance shall be entitled to the same preference and protection as if the same had been registered at the time of entering the Caveat.

XIV. And it is hereby enacted, that any person may apply to a Register Office for an office copy or extract of any Assurance or other document registered thereat, and thereupon such copy or extract shall be prepared and a certificate signed by the Registrar shall be written or endorsed thereupon, which certificate shall state that such copy or extract is an examined copy or extract of the Assurance or other document registered; and shall specify the book and the place in which such Assurance or other document has been registered.

XV. And it is hereby enacted, that any person may on application at a Register Office, be allowed to inspect and search any of the registers to be kept at the said offices; and to take extracts from any such registers, subject to such Regulations as shall be made in pursuance of this Act.

XVI. And it is hereby enacted, that all office copies, extracts and certificates to be provided under this Act, and all receipts to be given under this Act for the payment of fees and for deposits, unless the same be required to be given in evidence in a Court of Civil Justice, shall be exempted from Stamp duty.

XVII. And it is hereby enacted, that every copy of or extract from any Assurance or other document registered at any Register Office, shall, if certified under the signature of the Registrar be admitted in all Courts as evidence of the due registration of such Assurance or other document, or of such part of such Assurance or other document as such copy or extract shall purport to contain, without proof of the hand writing of the certifying Officer.

XVIII. And it is hereby enacted, that the fees for registering any Assurance or for entering any Caveat, shall be brought or sent to the Register Office, with the document to be registered and the fees for making office copies of and extracts from any registered documents, shall be paid before such office copies or extracts shall be delivered, and the fees for the several other acts and things for which fees are in the said Schedule expressed to be payable, shall be paid before such acts or things respectively shall be done or permitted; and no person shall be entitled to the delivery from a Register Office, of any compared or examined document, office copy, extract or certificate, or to make any search in the said Register Office, until the fees payable thereon shall have been paid.

XIX. And it is hereby enacted, that in case of the death or absence on leave of any person appointed by the Local Government to register Assurances under this Act, it shall be lawful for the Zillah Judge or other Officer specially authorized by the Local Government, to appoint any person whom he may think proper to take temporary charge of the office and to register Assurances in the same manner as if such person had been appointed to the office by the orders of the Local Government.

XX. And it is hereby enacted, that any person fraudulently removing any registered copy of any Assurance or other document from the office of Registry, or fraudulently making any alteration or erasure therein, or fraudulently destroying, tearing, or effacing the same, or any part thereof, shall be liable to be imprisoned with hard labor for any period not exceeding fourteen nor less than four years.

NOTICE.

CHANGE OF PILOT STATION FOR THE RIVER HOOGHLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the encreasing resort of Shipping to the Port of Calcutta, to supply Pilots at the distant Station off Point Palmyras, the arrangements as noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, bearing, according to circumstances, E. by N. a S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of water.

2d.—This Vessel will exhibit by day when any others are in sight, besides the usual Company's Ensign at her Peak, a *large Danish Jack* (red with white cross) at her Main Top Gallant Mast Head, and at night a GOOD Light in the same situation, besides burning a Blue Light every thousand beating a Gong frequently in calm thick weather, to warn Vessels coming from the Southward of her near neighbourhood. She will *not* however have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Palmyras during next season, and directing them to a new one in the South Channel between the Tails of the Eastern and Western Reefs, where Pilot Vessels will then be found in from 16 to 20 fathoms water, and from 6 to 8 Miles South West of the present South Channel Buoy, that Buoy laying in Lat. 20° 58' 30" N. Long. 88° 4' East of Greenwich, and in 12 fathoms water.

3d.—For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always wear by day, when other Vessels are in sight, a large *St. George's Jack* (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant *good* Mast Head Light, by Blue Lights and Maroons used alternately every half hour and also by Guns fired every four hours, say at 8 P. M., Midnight, and 4 A. M. with good Rockets discharged at the same time.

4th.—All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 16 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th.—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 *Vertical* where best seen, but also by the discharge of a Gun, if they have any on board, as soon as they descry the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot Vessels at the Station on their own accounts no less than that of the Public as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention to Duty, or Carelessness of any kind whatever.

Master Attendant.

By order of the Marine Board,

C. B. GREENLAW, *Secretary.*

Fort William, the 18th October, 1841.

No. 1745.

NOTICE.

REFERRING to the Notification indicating the proposed change of the Pilot Station during the approaching S. W. Monsoon, the Marine Board hereby give Notice, that with the sanction of Government, a Chart of Captain Lloyd's late Survey of the Ground between Lacam's Channel and False Point is being lithographed for public Sale, and the following is copy of Instructions proposed by Captain Lloyd with a view to the more ready Guide of Vessels from False Point to the New Station.

" It has been proposed by the Master Attendant, " and approved of by the Marine Board, to change " the Cruizing Ground of the Pilot Vessels during " the S. W. Monsoon, or between the 15th of March " and 15th of September from their present Station " of Point Palmyras, to a position 6 or 8 miles S. W. " from the South Channel Buoy in from 16 to 20 " fathoms, and the following directions are offered as a " guide to direct Vessels from False Point Light House " to the New Cruizing Station."

" False Point Light House is in Latitude 20° " 19½' N. and Longitude 86° 47' E., and that of the " South Channel Buoy in Latitude 20° 59' N. and " Longitude 88° 4' E., and bears from the former " N. 61 E. true or N. E. by E. ¼ E. by Compass, " distant 83 miles, and is laid in 12 fathoms."

" By an inspection of the Chart it will be seen that " the Bank of Soundings off Point Palmyras extend in " a direction towards the tail of the Western Sea Reef, " and the nature of the bottom (as distinguished from " that of the Hoogley deposit which is Sand and Mud " with shining specks) is a gravelly substance com- " posed of Sand Shells and small Pebbles discharged " from the " Kunka" and other Rivers near Point " Palmyras, the lighter materials of which being " carried further out, is deposited and forms what is " called the Pilot's Ridge, which in crossing to the " N. W. shews a little less water than on either side, " and in coming from Seaward you Shoal rather " suddenly from 28 to 23 fathoms upon its Eastern " edge. It is composed of a shelly Sand or Minute " Gravel, of a reddish or rusty brown colour."

" The best Guide therefore to enable a Vessel to " direct her course from False Point to the Vessels at " the New Station will be to run down the edge of " the Pilot's Ridge, and having made the Light House " and brought it to bear about W. S. W. or S. W. by W. " and distant by computation from 10 to 15 miles, should " steer to the E. N. E., and having gradually encreased " her depth of water to 23 fathoms upon the Eastern " edge of the Ridge, she should regulate her course to " keep between it and 27 fathoms, when, by attention to " the lead and nature of the Soundings, course and " distance run from the Light House, it is almost " impossible to miss the Pilot Vessels (if the above " limits are kept within) either by getting too far to " Windward or falling to Leeward, for the Soundings " encrease so rapidly to Seaward from the proposed " New Station, that 28 fathoms will not be more " than 3 or 4 miles to the Southward of it, and 23 " fathoms the same distance to the Westward of it."

" The Soundings to Seaward of the Ridge are in " general a greenish or olive coloured mud, with " occasionally a few bits of broken Shells mixed " with it."

No. 14 of 1842 —1 The Hon'ble the Court of Directors having provided Cloth of English manufacture for the gratuitous supply of Great Coats to the European Foot Artillery and Regiments of European Infantry in Her Majesty's and the Honorable Company's Service, Officers Commanding all such Corps will transmit Indents prepared according to annexed Form No. 1 to the Secretary to the Clothing Board and to the Army Clothing Agents in their respective Divisions, with whom Muster Patterns will be lodged, and on the receipt of the Great Coats Distribution Statements will be forwarded to those Departments as prescribed for other Clothing,

2. The Cloth provided being of a description very superior to that in use for similar purposes with Infantry Regiments, the Coats will, under no circumstances, be replaced under six years, nor are they to be supplied to a Regiment or to Individuals as a matter of course at the expiration of that period, but only as the necessity for such supply may be satisfactorily established by the Report of a Committee of Survey: moreover, it is not intended they should ever be considered the property of the Soldier : they are to be taken care of in the same manner as his other necessaries, any loss occasioned by his neglect is to be made good from his Pay, and whenever any Great Coats are condemned as unserviceable the Survey Report should specify the date or dates of issue, and they are to be returned into Regimental Store to be held at the disposal of the Clothing Board for the advantage of the State—An Indent to replace the number condemned, if necessary, to be submitted with the Survey Report.

3. The month and year when issued from the Agencies to be marked on the Great Coats in such a manner as not to be removed.

4. Quarter Masters of Regiments will be held responsible for the number supplied on Indent, and that on the occurrence of any Casualties the Great Coats are to be returned into the Regimental Store, and carefully preserved for issue to Recruits —A Special Report is to be made by the Officer Commanding the Regiment to the Secretary to the Clothing Board, when the number in store is likely to cause detriment or inconvenience to the Public Service.
